# Where does the AI get its answers?

Where answers come from

# Seven kinds of sources.

AI engines lean on them when they recommend a business in the Gulf. We read all seven.

+ Your own content

Source map

# We break every answer into the domains, pages and mentions it was built from.

Then we match the domains to your brand and your competitors.

Citation monitoring

# Unlike backlink tracking, it shows which sources the engines actually trust right now.

Click any tracked question to see the pages the engines cited for it, and the text they quoted.
