Is your salon or brand the one the AI recommends?

How customers choose

Visual, local and review-driven.

Instagram and review portals shape the answer, and a facts page fixes prices and locations.

Questions we track

Four questions from the Gulf

«أفضل صالون في الكويت»

“best lash extensions in Dubai”

«منتجات عناية بالبشرة في السعودية»

“men’s barbershop in Doha”

Written the way people type them, in Arabic and in English.

What gets a beauty business named

Three things we fix

01 Prices and locations stated: a facts page per branch with services, prices and hours.

02 Reviews and portals: booking portals and review sites carry your real ratings and details.

03 Creative that brings bookings: short Arabic video tested on Meta and TikTok, judged on bookings.

A common question

Can the AI get my prices wrong?

Yes, from old booking listings. We correct the sources and re-check monthly.
