Does GEO replace SEO?

Myth

If you do GEO, you don’t need SEO.

Fact: AI engines read the same web Google reads. Pages that rank are the pages that get cited.

Myth

Translating your pages into Arabic is enough.

Fact: translated content is content nobody searches for. Buyers type in their own dialect, and the content needs to answer the way they ask.

Myth

The AI sees your new prices right away.

Fact: only if the pages it reads update.

Where we stand

We sell measurement, not a guarantee.

No one can honestly guarantee the AI will name you. What we guarantee is that we measure, you see the numbers, and we adjust.

Start with what can be measured.
